### Disgraced DJ Jimmy Savile & Savile's Mate Ray Teret

#### BBC in crisis over Savile scandal

Share 75 Tweet 10 Recommend 16

A lawyer for 169 of Savile's victims stated that Teret's conviction represents "the closest the victims of Jimmy Savile will get to a conviction against their attacker".

#### Gary Glitter jailed for 16 years

The judge said that Glitter had done all his victims "real and lasting damage", as Sarah Campbell reports

**Former pop star Gary Glitter has been jailed for a total of 16 years for sexually abusing three young girls between 1975 and 1980.**

#### Former council leader jailed for two years for 'appalling' child pornography offences

The judge said he had to deal with him for downloading 2,844 still images, and 293 movies, of children. He also had to deal with him for the distribution of 23 stills and seven movies. Osbourne had also accessed 152 extreme images, either in still form or as movies, showing "revolting images of deviant sexual practices", including depiction of sexual behaviour between humans and animals, and depictions of serious violence being inflicted on women.

#### Kingston council leader quits over child porn arrest

Derek Osbourne has twice served as council leader

**The leader of Kingston borough council has resigned after he was arrested on suspicion of possessing indecent images of children.**

Derek Osbourne, 59, was arrested on Tuesday at his home in Kingston and taken to a south London police station. He has been bailed until August.

In a statement, acting leader Liz Green said the Liberal Democrats were "deeply shocked".

Mr Osbourne was first elected leader from 1997-98, and then again from 2003.

## ‘Disclosure Email’ (Extracts of 1,888 words single paragraph)

Subject: ill start again with more time please

‘hello again. sorry about the rushed mail earlier, ive been locked out of my mailbox for ages.’

‘i witnessed him abuse <child> after he came up behind me in the street where id gone to see my freind after appearing in my street and the town of his own accord and after finding out my friends address from my \_\_\_\_\_ many months earlier who said he wanted to post me something. that never arrived but an old man turned up asking my friends seven year old where i was..and it started.’

‘i decided not to go the police immediately with my child who would be evidence as the met policeman in <family home town> told me when i was thrown out of \_\_\_\_\_ house and asked for their aid, that my \_\_\_\_\_ was dangerous and even if something serious happened to either of us in the future it would be unwise without much more protection to go up in court against him. The problem arose when i reported him later a month after the assault, but instead of being beleived and supported they took us to the hospital for \_\_\_\_ checks then removed \_\_\_\_ claiming i was delusional, suicidal, neglectful (\_\_\_\_ had some bruises) and unable to be a parent while insisting if i didnt sign a voluntery section 20 they would call the men in white coats. ‘

‘there is not way the universe will allow <child> to endure the years i did.’

you were right, im blown away. ive corrected a slide with the date 2012 where it was 2011 in september towards the end on the bed! i simply think thats a beautiful beautiful present and maybe a new form of therapy? you have such an eye for detail and are very truthful and accurate, truly i can see what absolute care and respect and devotion you have at your disposal towards children and am so priveleged that we have the slides all of a sudden. total new one for me and really something you can be proud of too there. hot stuff. many many thanks rainer. i feel quite a bit happier.

## Forensic Background

A vulnerable mother who escaped from an intergenerational abuse family was instructed by a clandestine police operation to delay reporting of any sexual assault on her child. An officer explored the death of a couple who had lodged with this family and the 'disappearance' of their new born child. The officer was also aware that the mother had reported a teenage pregnancy that succeeded from incestuous rape where the baby also 'disappeared', and that the colleague to whom the 14 year old made the disclosure had been found dead a few days later. Three police officers advised the mother to delay reporting until injuries could not be proven as it would be 'too dangerous to go up alone against the family member'. Police claimed that spotting individuals familiar from her childhood would indicate that the undercover operation was successfully underway.

\* Details such as date, time and circumstances deposited in multiple locations with release instructions

When the 2 year old was sexually assaulted the mother waited several weeks as per police instruction before reporting the assault. A total of 5 police officers (including a Child Protection Officer) and a Health Visitor created a myth that the mother was 'delusional' in flagrant violation of the professional definition of 'delusion' provided in the DSM-V (American Psychiatric Association, 2013, p. 819):

**'delusion':** a false belief based on incorrect inference about external reality that is firmly sustained despite what almost everyone beliefs and despite what constitutes incontrovertible and obvious proof or evidence to the contrary.'

## Arson & Murder?

On 28<sup>th</sup> December 2010 the toddler's nursery teacher's friend was found dead in the river adjacent to King Edward Street, Blaengarw:

It is disconcerting that the police spokeswoman said there are not believed to be any suspicious circumstances surrounding the death. Just a few weeks later on 29 January 2011 a row of cottages overlooking the area where the body was found went up in flames. Reportedly the deceased had been seen in a pub with the 'Stalker' and later arguing. The figure was designed for an Appeal Court Submission (thwarted through authority irregularities at the Royal Court of Justice).

In between these two incidents the godmother of the toddler was found dead in her burnt out house across the Irish sea:

Authorities refuse to properly investigate these matters and took the toddler permanently 'into care' as mental health professionals considered the mother 'delusional'. Are authorities (including mental health institutions) in this region infiltrated by 'vested interests'?

## Stalking & Defamation

Defamatory calls to police e.g.:

- 'I saw her shop lifting'
- 'There was a girl crying in the field'

Defamatory calls to social services e.g.:

- 'Neglecting child'
- 'Concerns about mental health'

Physical threats e.g.:

- Driving up the pavement
- Trying to wrestle buggy off mother

Enlisting members of the public / co-conspirators e.g.:

- 'A rich benefactor would like to pay for the schooling of your child'
- 'Yes. She is on the bus – she is carrying, ahem, a buggy'
- 'She is feeding dog food to her child' (police incident record)

# Wales Police Incident Record

Original Incident Report: JUST SEEN FEMALE WALKING UP [REDACTED]  
[REDACTED], SHE SAID SHE HAS WALKED FM [REDACTED]  
AND SHE IS GOING [REDACTED], SHE HAS 20 MONTH OLD BABY WITH  
HER, SHE IS SLEEPING ROUGH THE BABY IS STINKING AND BEEN EATING  
DOG FOOD HIS NAPPY IS STINKING, I SAW HER 5 - 10 MINS AGO. CAN  
POLICE LET ME KNOW OF OUTCOME

from [REDACTED] all actions complete no further lines of enquiry attended at the location and located the female [REDACTED]  
[REDACTED] who was in good spirits and in good physical order. She was fully clothed and wearing shoes. The child  
[REDACTED] was fully clothed and he was in good spirit and good physical condition. [REDACTED] was totally surprised to see  
officers. [REDACTED] was advised that the location and the fact that the temperature would drop was not suitable for her or the child. She agreed  
stating that she had misjudged the weather and stated that she would return home to [REDACTED]. Her intention was to complete a walk of the [REDACTED]  
[REDACTED]. Her belongings were checked and she had a large quantity of food suitable for both her and her son. [REDACTED] was  
suitably equipped for a camping trip. There were no concerns for the health or safety of the child and they were conveyed to home. All the  
relevant checks were conducted re at risk etc negative result. The witness stated that the child was eating dog food and wearing a dirty nappy  
was false. The child was being fed very well with organic food. The nappy was not dirty as I checked and the child was sat in the pram and would  
have been impossible to see. All in order and no concerns updated and suitably advised

*'On a hiking trail we were intercepted by a police helicopter (!). Someone we had bumped into on the way earlier claimed that I was feeding dog food (!) to my child and that the clothing of my child was unsatisfactory. The police officers checked everything we had and found everything in excellent order. The malicious rumour was obviously completely made up, and I was fully exonerated. These policemen were kind and friendly. They took a liking to us and brought us back to our home as the weather had turned. This story 'sounds' unlikely - but is covered through a police record in my files. In the Council ICD notes (page 10) dated 23rd Nov 2011 this incident was described wrongly as follows: 'Concerns have been reported by a member of the public that Ms < > was walking on a train track. (Ms < > disputes this, stating that it was her intention to camp over night.). The police suggested that it would not be a good idea and Ms < > was taken back home.' This example is symptomatic of the level of incompetence and malice the Council employees showed in their biased reporting throughout the whole process (but is difficult to prove where there is no external witness/documentation).'*

## Toddler Assault in Cul-de-Sac

*'I fairly regularly visited the friend who I had been staying with. On the way I once noticed a man in front of me who then disappeared out of sight. When I took my child out of the buggy the Stalker grabbed my child and sexually abused \_\_\_\_\_. I was terrified.*

*I reacted instinctively as follows:*

- I tried to minimise the risk of abduction*
- I tried to minimise the risk of the \_\_\_\_\_ being suddenly dropped*
- I tried to minimise the risk of injury*
- I looked towards the house of my friend to avoid eye contact*

*The incident felt like a nightmare but later on I found various indications that this was not just a bad dream or hallucination.'*

## Authority Compromise?

*'There is also the issue that the 1st Psychiatrist (of \_\_\_\_\_ cultural origin) is linked to her \_\_\_\_\_ through another \_\_\_\_\_ family (who now lives in \_\_\_\_\_) they both know. \_\_\_\_\_ chanted at age 17 to the \_\_\_\_\_ with their daughter '\_\_\_\_\_' . \_\_\_\_\_ disclosed this detail on the evening after the face-to-face session with \_\_\_\_\_. She previously hinted at this but at the time emphasised that she does not want other individuals to get drawn into the toxic abyss of her dysfunctional family (I find this a hallmark of \_\_\_\_\_'s wisdom and maturity).'*

*'In principle I would be prepared to issue a Letter of Instruction \_\_\_\_\_ to conduct a document review surrounding the police instruction including a 1h recording of \_\_\_\_\_'s response thought processes between the assault and the decision to make that phone call to the police, and her 'trauma' of being disbelieved. She said the response of the Authorities was 'the biggest humiliation of all my adult life' - and you know what that means given what other experiences you heard from her.'*

# Trauma Psychologist

*Private and Confidential*

To whom it may concern,

I am writing to let you know that I have started my psychological assessment process with [redacted] October 2012, following her request to meet with me.

Although not completed, clinical assessment so far indicates that [redacted] suffers from the psychological effects of very severe childhood trauma and that assessment needs to be carefully paced to enable her to stay within her window of tolerance to avoid re-traumatization and to enable her to safely participate. My findings will be reported in due time.

Please do not hesitate to contact me if you have any further questions.

# HCPC Fitness?

In the vicinity of Ms \_\_\_\_\_  
the following three 'mysterious'  
death occurred in the space of 12  
months before the attack on the  
\_\_\_\_\_:

1. A close friend of the child's  
nursery teacher was found dead  
\_\_\_\_\_, and \_\_\_\_\_  
nearby went up in flames a few  
weeks later
2. The god-\_\_\_\_\_ of the boy died  
when \_\_\_\_\_ house burned down
3. The half-brother's wife died  
unexpectedly

Criminal intentions to pervert the  
course of justice can hence not be  
ruled out.

**There was not a single sentence or idea expressed that would be indicative of 'delusions' or current personality/character issues/problems.**

## Problem 1: Omission of Incident Coverage

The whole case revolves around the alleged attack on the \_\_\_\_\_ - which medically was neither proven nor disproven as 1 month had elapsed which is long enough to heal. The session failed to cover this incident. As a consequence any reporting and interpretation must be based on 'Collusion' i.e. repeating the 'delusions' claims of the other mental health professionals that this Clinical Psychologist presumably was meant to cross-check 'independently'.

Allegation 1: Failure to carry out a truly independent assessment in a setting that will decide about the final destiny of a young family – with a completely one-sided case made (up) that is 100% based on 'denial' of the crimes Ms \_\_\_\_\_ reported.

## Problem 2: Omission of 'Giving birth to a baby at 14' Allegation

I understand that when Ms \_\_\_\_\_ discussed her own abuse including the pregnancy with police one year before the actual attack happened she was advised to disclose the fact that she had a baby at 14 - that disappeared.

In my view that lack of coverage of these two issues entirely invalidates the session, and - given its pivotal role – the entire court proceedings. They prompt me to make this complaint as I am concerned that those involved in the case proceedings may have been 'compromised'. This concern is fuelled by the disclosure involving a 'downstairs neighbour' (implying a paedophile 'ring') in the session I witnessed.

Concern did not meet the HCPC 'Standards of Acceptance'

# Dissociation Specialist

## Conclusions

Based on observations and questions posed during the assessment, at the present time [redacted] does not meet the DSM IV Criteria for a Dissociative Disorder. Likewise she does not demonstrate any significant dissociative symptoms. It is to be noted, however, that both self reporting screening instruments demonstrated the equivalent of nil scores. It is highly unusual for even non dissociative people to score so low. If I add to this the observations during the assessment, it is in my opinion possible that her potentially significant dissociative symptoms are categorically cut off from consciousness for the time being. Dissociation is, after all, a means of survival and coping in the world outside through a complete amnesia of emotional and traumatic effects of one's childhood. From her account, it seems that a significant amount of abuse memories have been processed on her own.

The SCID D differentiates Dissociative Disorders from other psychiatric disorders such as Schizophrenia. No indications of any psychosis were apparent during the assessment. Thus there were no delusions of thought, hallucinations or disorganised thinking and speech or paranoia. [redacted] presented in a very articulate, emotionally appropriate manner. Her responses and behaviour during the assessment were both honest and open. She was also able to discuss [redacted] with a realistic appraisal of [redacted] behaviour. I had no reason to doubt her ability to look after [redacted] in both the short and longer term.

# Delusion Definition

A recent UK court custody case quoted 'Blacks Medical Dictionary' (Marcovitch, 2010):

**'Delusions'** An irrational and usually unshakeable belief peculiar to some individual. They fail to respond to reasonable argument and the delusion is often paranoid in character with a belief that a person or persona is/are persecuting them. The existence of a delusion, of such a nature as to seriously influence conduct, is one of the most important signs in reaching a decision to arrange for the compulsory admission of the patient to hospital for observation. (See Mental Illness).'

A Google Search on 18/01/2014 did not result in a single entry that quotes the first definition sentence of Black's Medical Dictionary.

The DSM-V definition (American Psychiatric Association, 2013, p. 819) remains identical to the DSM-III (p. 765) and DSM-IV-TR (p.821):

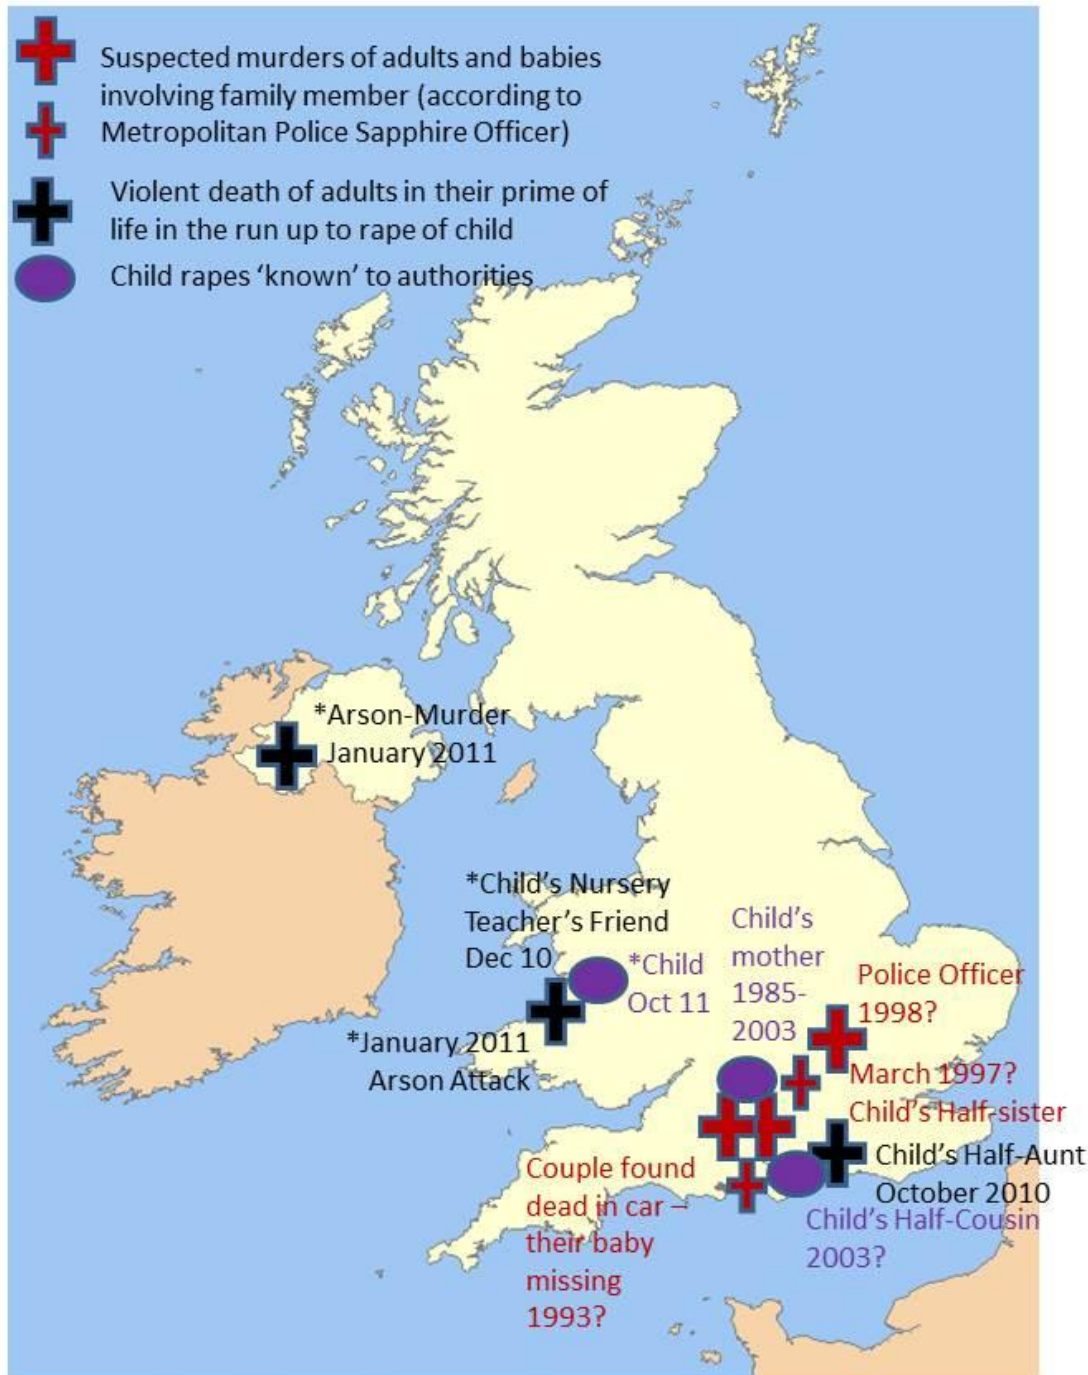

**delusion** a false belief based on incorrect inference about external reality that is firmly sustained despite what almost everyone beliefs and despite what constitutes incontrovertible and obvious proof or evidence to the contrary.

A Google Search on 18/01/2014 brought up 154 entries that quote literally this first DSM Delusion definition sentence.

# Operation Midland

Tue 07/06/2016 15:22

Dear Dr Kurz

Unfortunately at this time I am unable to provide to you the TOR for Op Midland. These are for MPS knowledge only, to allow us to investigate relevant information. It maybe in due course they will become public knowledge but not at this time.

I cannot provide you with the details for CRIS 0405609/13. This is a private matter between the complainant and the police. If you have further information regarding a crime then you can of course make another third party allegation to the correct force area. If you have a complaint about the way police dealt with this allegation I suggest that your best course of action is to report to the local force. If you preferred to make an allegation to the IPCC they will then forward to the relevant force area.

With regards to an alleged linked series of murders I cannot see that there is anything at this stage to link those crimes. If you have a complaint about the way they have been investigated then I think the best way would be to go to the correct force area or the IPCC who will do this for you.

The same applies to the other allegations in respect of the Kingston Police officer and Edward Heath.

I can see that you have a considerable number of grievances with the way that a number of police forces have dealt with differing allegations. Op Midland is not the best way to deal with this. We have logged all your information, but at this time as stated none falls within the TOR for Op Midland.

Kind regards

Dear \_\_\_\_\_

It was a pleasure talking to you earlier today. Please find attached the 'leaked' document seemingly prepared by Psychiatrist Dr Joan Coleman. For ease of reference I also attach the .xls file on which I based the two most relevant EPA conference posters (content copied from an occult network site including some comments publicly identifying Joan Coleman as the author).

I also attach the Nuremberg posters which give a succinct account of the main case I am investigating one of which has two URL links embedded:

Extreme Abuse Dossier (the last few pages of which probably tally with one of the documents you had) which were a subset of a Judicial Review submission (thwarted through fraudulent action of Royal Court of Justice staff!):

The suspected serial abuser, rapist, arsonist and murderer lives in Kingston upon Thames 3 miles from my home.

I got various reports and other materials to back my allegations. If done for Arson-Murder the guy (and his wife!) may 'sing' about all sorts of things.

Happy (?) Reading!
